GROWTH IN
PATIENT POPULATION
REACH THE
EAR-SHARE MARKET

The Sick Era

With 95% of the population developing multiple medical conditions, their spending increases.

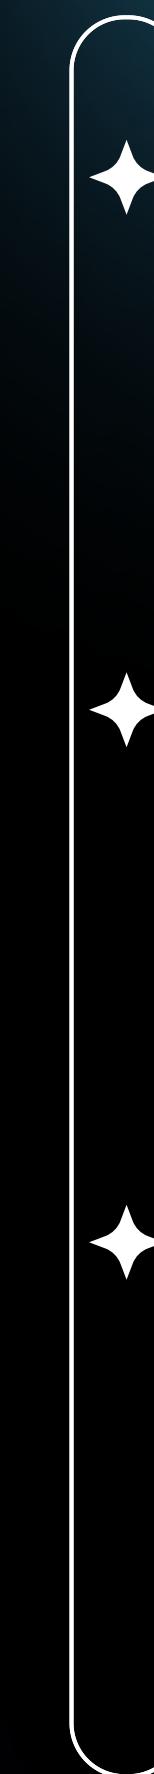

Consumers with good health and declining health continue to spend on food, education, fashion, family expenditures, entertainment, auto and more.

Connect with the population who suffer from declining health.

Learn more about the spending habits of people whose health is spiraling out of control.

Sickness spurs impulsive buying habits. Reach consumers with an urgency to shop. Our radio and audio programs push your message through to headsets and radio audiences.

As consumers develop new health conditions, our audience grows. Consumers with new health conditions are looking to buy goods beyond just medicine. The sick demographic listen to our medical show for answers as to why their health is declining.

Are you ready for a medical change in your customer(s)? A change in your customers health, can impact your sales. We help you maintain current customers and deliver new customers whose buying behavior changes during short and long term illnesses and injuries.

Customers buying behavior changes drastically when they become sick or get injured, their purchasing habits can effect a businesses bottom line.

A once loyal customer may stop using your products or services and may think they no-longer have use for your business. Through our Podcast / Radio show, customers learn more way to use your products and stay true to your brand while sick.

We customise the show around your brand, to shape the buying behavior of sick, injured and health conscious consumers. Buying behavior can shaped during mass illness, medical break-outs, health awareness and community wide spread trama...
